

Box plot comparing the number of visits between two groups: 'No visit' (grey) and 'Visit' (red). The y-axis represents the number of visits, ranging from 0 to 10. The 'No visit' group has a median of approximately 4.5, while the 'Visit' group has a median of approximately 5.5. Both groups show a distribution of data points, with the 'Visit' group having a wider range of values.

A horizontal number line with tick marks at 0 and 1. A vertical tick mark is drawn at the midpoint, labeled 0.5.
